

METROPOLITAN NEWSPAPERS LAUD ACHIEVEMENTS OF DR. PIERCE, FAMOUS PHYSICIAN

A BRIDGEPORT WOMAN ALSO INCLUDES HER INDORSEMENT OF SUPER-TONIC.

The Wilder treatment is receiving untold praise from men and women in every walk of life, from the Judge who presides over a great judicial district to the workman who steadily plays his daily toll: from the wealthy club woman to the fond mother who supports her loving flock. And now comes the keenest appreciation of Wilder's (full extract) from another source, not only of the super tonic itself, but of the integrity, honesty and skill of its discoverer, Dr. Pierce.

Never before in the history of journalism has a proprietary medicine received honorable mention in the columns of a metropolitan newspaper. Both the New York Times and the Boston Globe have printed an endorsement of Dr. Pierce and his medicines.

NEW YORK TIMES SAYS "MERIT COUNTS"

Dr. V. M. Pierce is well known to the American public as physician of fine attainments and his Family Medicines are favorite remedies in thousands of our households. As a counselor and friend Dr. Pierce is a cultured, courteous gentleman. He has devoted all his energies to the alleviation of human suffering. With this end in view and his whole heart in his labors he has achieved marked and merited success. There can be no real success without true merit. That his success is real is evidenced by the fact that his reputation as a man and physician does not deteriorate, and the fact that there is a steadily increasing demand for his medicines, proves that they are not nostrums, but reliable remedies for disease. The various departments of the World's Dispensary in which his family medicines are compounded and his special prescriptions prepared are provided with all modern facilities.

BOSTON GLOBE SAYS—"ABILITY AND PROFESSIONAL SKILL WINS."

What can be accomplished by judicious enterprise when backed up by ability and professional skill is shown by the magnificent buildings of the World's Dispensary and the Invalids Hotel and Surgical Institute at Buffalo, N. Y. While models of architectural beauty and completeness their real worth and usefulness consist rather in the humanitarian objects they are made to serve. They stand superior to all institutions of their kind not only in material proportions but as well in the medical knowledge and practical experience of those connected with them. In each department are those and those only who by natural bent and training are especially adapted to combating their particular class of "ills which flesh is heir to."

Mrs. T. G. Bates, 77 Ash St., Bridgeport, has a few words to say also which are of far more interest, because they tell of a supreme relief obtained through the use of the Wilder treatment. Dr. Pierce's newest and best system purifier. It follows: "I think if it wasn't for your splendid medicine, Wilder's, I would not be as well as I am to-day. We have been up in the air so to speak, all summer, looking for a suitable rest and I have been constantly on the go and would get home at night worn out and terribly nervous. I was so tired I couldn't sleep and would sit up most of the night. My stomach was affected too—nervous indigestion, I guess, they call it. I couldn't eat much and what little I did eat distressed me. I was under great weight and weak and felt tired all the time. I was influenced to try Wilder's, because of the many people it was helping here. It certainly works fast and well. I began to brace up after a few doses. My stomach gives me little or no trouble now, I can sleep and eat once more and am fast getting back my old strength and overcoming my 'nerves'."

T. S. Jackson, health expert, who is personally representing Dr. Pierce here at Hindle's Main and State St. Store, is courteously explaining Wilder's (full extract) daily and taking the blood pressure free until 9 o'clock at night.—Advertisement.

COMMISSIONERS VOTE TO RAISE FIREMEN'S PAY

All Classes of Members to Get Increases If Council Approves Plan.

An increase in salaries of members of the fire department which will total about \$25,000 per year was voted last night by the fire commissioners. The matter has been under consideration for several months and was discussed at length at an executive session of the board held two weeks ago. The schedule as prepared by the commissioners was approved last night and will go before the common council at the next meeting, Nov. 6. Action in the matter probably will be delayed until the meeting of the new council on Monday evening, Dec. 4.

The salaries of Chief Engineer Johnson, the assistant chief engineers and the superintendent of the fire alarm system remain the same. The pay of all firemen in the ranks is increased. Those of Grade A are advanced from \$1,200 to \$1,350; Grade B, from \$1,100 to \$1,250; Grade C, from \$1,000 to \$1,150. The salaries of all captains were increased from \$1,400 to \$1,600; lieutenants from \$1,250 to \$1,450; engineers from \$1,300 to \$1,500. CHECK THAT ECZEMA BEFORE IT GETS SERIOUS

That little patch of eruption may be nothing more than a slight annoyance now. But, if neglected, such things have an uncomfortable way of spreading and becoming really serious—turning into itching, burning skin troubles that make life almost unbearable.

So don't take chances. Nip it in the bud with a few simple treatments with Resinol. Usually the first bathing with Resinol Soap and dressing with Resinol Ointment stop all itching, and soon the irritation is entirely cleared away. Doctors have prescribed Resinol for over 20 years, so that it is not an experiment, but a remedy of proved value. All druggists sell Resinol Ointment and Resinol Soap. But if you want a sample of each, free, write to Dept. 54-R, Resinol, Baltimore, Md.
